# NATIONAL ICT SUMMIT 2010

## Connecting the Islands to the World!

The goal to make the Philippines one of the largest and successful outsourcing and off-shoring destinations in the world has reached the shores of practically all our islands today! With the guidance of the Commission on Information and Communications Technology (CICT), major cities came together in 2007 to lay the foundations of a nationwide body of all ICT councils and federations.

Eventually, the First National ICT Summit was held in Iligan City last November 2008 where 10 of the biggest cities and provinces forged the **NATIONAL ICT CONFEDERATION OF THE PHILIPPINES (NICP)** to be the recognized national venue for collaboration, develop the member organizations through the sharing of best practices, among others, and to be the unified voice for the Philippine Information and Communications Technology (ICT) Industry.

The 2nd National ICT Summit in Clark in November 2009 was a resounding success especially with the acclamation of Clark as one of the Centers of Excellence along with Cebu and Metro Manila. Today, we have 34 LGU-based ICT councils and organizations from NCR, Luzon, Visayas and Mindanao. This year, the 3rd National ICT Summit goes to Visayas, particularly – Bacolod, hosted by the Bacolod-Negros Occidental Federation for Information and Communications Technology (BNEFIT) with the support of the Iloilo Federation for Information Technology (IFIT). Below is the provisional agenda:
